## **Amendments to the Specification:**

Please replace the paragraph on page 23, Abstract of the Disclosure, with the following rewritten paragraph:

--A method of providing an image on a media having a imagereceiving layer and a protective overlayer, comprising the steps of providing an image on said image-receiving <u>layer</u> and providing machine-readable indicia on said protective overlayer by varying the temperature of a thermal head used to apply <u>the said</u> protective overlayer.--
